

# *We're here for Alex Shirer of Alcolu*

Mrs. Barbara Hayes, Director of Nursing  
Clarendon Health System  
10 Hospital Street  
Manning, SC 29102

Dear Mrs. Hayes,

On behalf of my husband, Alex, let me start by saying thank you to the many Clarendon Health System employees and professionals who gave us their best during Alex's two recent admissions at Clarendon Memorial Hospital.

Every single employee who came in our care circle demonstrated compassion, professionalism and genuine warmth. Not just the RNs and MDs, but food service personnel, orderlies and medical assistants. All employees introduced themselves to us when they entered the room, greeting us warmly and explaining who they were and what they were there to do. They were unfailingly kind and friendly. We received excellent care.

You'll notice that I say "we," for truly, as a very frightened spouse, I felt cared for right along with my husband. Thank you for that. In addition, I noticed their special attention to pain management, and my husband felt safe and comfortable that his pain needs were being anticipated and met.

Special mention must be made of Cassandra Tassone, Patricia Barrineau, Rachel Richburg, Beth Giddeos and Sheena Hangen for their wonderful care.

We would also like to acknowledge the follow-up care we have received with the physical therapy staff at Clarendon Memorial. They, too, are dedicated, caring professionals.

In closing, we are both thankful that Alex could receive excellent healthcare right in our own community and from people who really cared about us. We will always be grateful.

Sincerely,  
Mrs. (J. Alex) Rosanna Shirer

For the best hospital care,  
out-patient rehabilitation services,  
radiology scans and lab tests,  
**ask your doctor to send you to us.**
