A Personal Message from Dr. Picard...

Since its opening in 1824, MUSC has been serving the people of South Carolina. We are excited about joining with the Clarendon Health System to provide you with the best in urologic care.

In addition to to the management of a host of urologic problems, I am trained in advanced laparoscopic and robotic surgery of the prostate, kidney, ureter, and bladder.

On a personal level, I have a love for the outdoors and have always enjoyed getting out and throwing a line in the water.

I look forward to getting to know all of you more in the near future.

Sincerely,

Jonathan C. Picard, M.D.

A Personal Message from Joe Turner...

I have been associated with the Medical University of South Carolina for the past 25 years and providing care as a Nurse practitioner in the Department of Urology for the past 12 years. My practice consists of diagnosing and treating general urologic conditions. I also sub-specialize in erectile dysfunction and testosterone replacement therapy.

Outside of my urology practice, my family and I enjoy sports and when not coaching and playing sports I hunt and run marathons.

I am excited about this opportunity to partner with Clarendon Health to provide urologic care to the citizens of this area.

Best Regards,

Joe Turner, R.N., APN
